

# Smoothwall Pulse

Giving students a channel to speak up and schools a way to spot those in need - in just 60 seconds a week.

# About Smoothwall Pulse

Smoothwall Pulse is a 60 second weekly check-in tool.

It gives students a channel to speak up and gives leaders better visibility of wellbeing levels across the school, including students in need of rapid intervention.

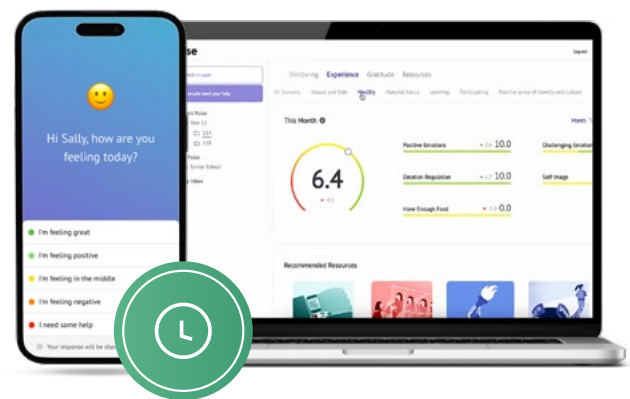

## How it works

**Students are asked to do a fun and easy weekly check-in lasting just 60 seconds.**

During each check-in, students are encouraged to reflect on their mental, social and physical wellbeing by answering 5 randomised evidence-based questions from the ARACY framework, starting with a simple yet crucial question, “how are you feeling today?”

When a student flags that they need help, Smoothwall Pulse will connect them with a trusted teacher, school leader, or administrator of their choosing.

## Highlights

- ✓ **Instant visibility of student wellbeing**  
60-second weekly check-ins give school leaders visibility of wellbeing levels across the school, years and classes.
- ✓ **Provides a channel for students to speak up**  
Vulnerable students can be better supported, including targeted and rapid interventions, if needed.

# Pulse's role in our Digital Safety and Wellbeing Framework

## About our Framework

Our Digital Safety and Wellbeing Framework enables school leaders to explore our solutions as they apply to the three most common pillars found in health and safety planning:

1. Prevention 2. Early detection 3. Education.

Schools can use this, supported by our Smoothwall team, to identify their priorities and plan the steps needed to achieve a more efficient and robust provision of care.

Our Framework is also a useful way for school leaders to keep abreast of the types of solutions available to them in the market. It helps them to better understand the role each of them plays and how they combine to build a digital wellbeing culture across the whole community.

*none of us is as powerful as all of us*

## The role of Smoothwall Pulse

Smoothwall Pulse sits in the Early Detection & Intervention part of our Framework.

It allows schools to spot students whose vulnerability is not easily detected through a web filter, is not easily spotted through the eyes and ears of teachers

and who therefore could go unnoticed, or noticed too late. It provides a vital channel for children to speak up.

Smoothwall Pulse is a vital component in proactive, digital safety and wellbeing provision.
